Focus on

It's tough at the top: Strategic mentoring for managing partners of law firms

We understand the role of a practice owner or manager can be a lonely one, with no one in your firm understanding the extent of the pressures you are under.

We know you have the passion and the drive to grow your firm but sometimes it helps to test your ideas with someone who understands your goals and who can ensure you achieve them.

Our business strategy specialists offer a range of services to support you as the leader of your firm. We can help you to identify those areas that are holding you back, discuss the options available to you and give innovative advice on the best course of action.

As experienced chartered accountants and strategy specialists we understand what a business needs to succeed and can suggest interesting advice on tax and company structures for you to get the best out of your practice.

Our focus is on implementation and success, not empty promises and fluffy advice.

“Take the steps towards working on your firm rather than in it.”

We want you to take the steps towards working on your firm, rather than in it. Working together we can help you with much more than just a business plan; we want to understand your personal goals to help ensure your business fits into your life plan, not vice versa.

Benefits include:

- Setting a clear vision and goals and implementing strategies to achieve them
- Developing a successful succession/exit plan
- Increased freedom from the routine of your business
- Higher return on your investment
- “Waste” reduction to generate more cash to reinvest in your business
- Improved team morale and productivity
- Building the value of your practice

Some areas we cover:

- Improved profitability/cash flow
- Effective time recording
- Billing psychology
- Business continuity
